HOUSE FILE 570

BY BROWN-POWERS, WOLFE, STAED,  
WINCKLER, KRESSIG, EHLERT,  
HUNTER, and MASCHER

**A BILL FOR**

1 An Act relating to family planning and abortion reduction in  
2 the state and including effective date provisions.

3 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

DIVISION I

FAMILY PLANNING AND ABORTION REDUCTION POLICY

Section 1. FAMILY PLANNING AND ABORTION REDUCTION POLICY.

1. a. In 2011, nearly two million eight hundred thousand pregnancies, or forty-five percent of pregnancies, were unintended, meaning that the pregnancy occurred when a woman wanted to become pregnant in the future but not at the time she became pregnant, or the woman became pregnant when she did not want to become pregnant then or at any time in the future.

b. The rate of unintended pregnancies is higher among women with incomes below two hundred percent of the federal poverty level (FPL), women eighteen to twenty-four years of age, cohabiting women, and women of color, and is lowest among higher-income women, white women, college graduates, and married women. With respect to the outcome of an unintended pregnancy, in 2011, women with incomes below one hundred percent of the FPL had an unplanned birth rate nearly seven times that of women at or above two hundred percent of the FPL.

2. a. Between 2008 and 2011, the unintended pregnancy rate in the United States declined by eighteen percent, the lowest level in three decades. During this time, the rates of both abortion and unplanned births fell substantially by thirteen percent and eighteen percent, respectively. Abortion rates have continued to decline and although states enacted new restrictions on abortions between 2012 and 2014, these states only accounted for thirty-eight percent of the total abortion rate decline between 2011 and 2014. Conversely, sixty-two percent of the decline in the abortion rate was attributable to states and jurisdictions that did not pass restrictive abortion laws during this same time period. This suggests that the decline in the abortion rate during both periods was not due to an increase in unplanned births or increased abortion restrictions.

b. During these periods, however, there was improvement in contraceptive use, including the use of highly effective

1 long-acting reversible contraceptives. Based on this data,  
2 researchers have concluded that the decline in abortions was  
3 driven by the steep decline in unintended pregnancy, which in  
4 turn was most plausibly explained by improved contraceptive  
5 use, not because fewer women decided to end an unwanted  
6 pregnancy.

7 3. a. According to the centers for disease control and  
8 prevention of the United States department of health and human  
9 services (CDC), two million three hundred thousand cases of  
10 chlamydia, gonorrhea, and syphilis were reported in the United  
11 States in 2017, the highest number ever, and two hundred  
12 thousand more than in 2016. Of these cases, the population  
13 aged fifteen to twenty-four accounted for more than one-half  
14 of all new sexually transmitted infections (STIs) each year,  
15 even though that population makes up only one-quarter of the  
16 sexually active population. Sexually transmitted infections  
17 are disproportionately more common in young and marginalized  
18 people.

19 b. If left undiagnosed and untreated, STIs can have serious  
20 health consequences, resulting in infertility, life-threatening  
21 ectopic pregnancies, stillbirths in infants, and miscarriages,  
22 and an increased risk for human immunodeficiency virus  
23 transmission. Additionally, STIs may result in adverse  
24 pregnancy outcomes including preterm birth, low-birth  
25 weight, and children with physical and mental developmental  
26 disabilities.

27 c. The CDC identifies budgetary cuts in STI prevention  
28 efforts, societal stigma, insufficient awareness of the  
29 importance of screening among some health care providers, lack  
30 of comprehensive sex education, and barriers to health care  
31 services as playing roles in the increase in STIs.

32 4. a. The CDC and the United States office of population  
33 affairs recommend that family planning services include  
34 providing contraception to help men and women plan and space  
35 births, prevent unintended pregnancies, and reduce the number

1 of abortions; offer pregnancy testing and counseling; help  
2 clients who want to conceive; provide basic infertility  
3 services; provide preconception health service to improve  
4 infant and maternal outcomes, and improve women's and men's  
5 health; and provide STI screening and treatment services to  
6 prevent tubal infertility and improve the health of women, men,  
7 and infants.

8 b. In 2014, of the sixty-seven million women of reproductive  
9 age, ages thirteen to forty-four, thirty-eight million were in  
10 need of contraceptive care, and twenty million were in need of  
11 publicly funded services and supplies due to being low-income  
12 or being younger than twenty years of age.

13 c. In 2015, public expenditures for family planning client  
14 services totaled two billion one hundred million dollars  
15 with Medicaid accounting for seventy-five percent, state  
16 appropriations accounting for twelve percent, and funding  
17 through Tit. X of the federal Public Health Services Act (Tit.  
18 X) accounting for ten percent. Tit. X subsidizes services for  
19 men and women who do not meet the eligibility requirements for  
20 Medicaid, maintains the national network of family planning  
21 centers, and sets the standards for provision of family  
22 planning services.

23 d. Although total public funding for family planning in  
24 actual dollars increased by more than one billion seven hundred  
25 million dollars between 1980 and 2015, after adjusting for  
26 inflation, funding levels were essentially the same in 2015 as  
27 in 1980.

28 e. In 2010, every one dollar invested in publicly funded  
29 family planning services saved over seven dollars in Medicaid  
30 expenditures that would otherwise have been necessary to pay  
31 the medical costs of pregnancy, delivery, and early childhood  
32 care; and the nationwide public investment in family planning  
33 services resulted in over thirteen billion dollars in net  
34 savings, helping women avoid unintended pregnancies and a range  
35 of other negative reproductive health outcomes.

1 f. In 2014, publicly funded family planning services helped  
2 women to avoid two million unintended pregnancies, which would  
3 potentially have resulted in nearly nine hundred thousand  
4 unplanned births and nearly seven hundred thousand abortions.

5 g. Publicly funded family planning has well-documented  
6 health benefits for women, newborns, families, and communities.  
7 The ability to delay and space out childbearing is crucial to  
8 women's social and economic advancement. A woman's ability to  
9 obtain and effectively use contraceptives has a positive impact  
10 on their education and workforce participation, as well as on  
11 subsequent outcomes related to income, family stability, mental  
12 health and happiness, and children's well-being. Evidence  
13 suggests that the most disadvantaged women in the United States  
14 do not fully share in these benefits which is why unintended  
15 pregnancy prevention efforts should be grounded in broader  
16 anti-poverty and social justice efforts.

17 h. Publicly funded family planning services help women to  
18 avoid pregnancies they do not want and to plan pregnancies they  
19 do want. Supporting and expanding women's access to family  
20 planning services not only protects women's health, it also  
21 reduces abortion rates. The clear implication for policymakers  
22 who wish to see fewer abortions occur is to focus on making  
23 family planning services and contraceptive care more available  
24 and on increasing funding to these services.

25 DIVISION II

26 MEDICAID — IOWA FAMILY PLANNING NETWORK

27 Sec. 2. MEDICAID — IOWA FAMILY PLANNING NETWORK.

28 1. The Medicaid 1115 demonstration waiver provided family  
29 planning services, at various time periods, from February 2006  
30 through June 2017, to men and women ages twelve to fifty-four  
31 with incomes not exceeding three hundred percent of the federal  
32 poverty level, through the Iowa family planning network.  
33 Services provided by the Iowa family planning network during  
34 this time did all of the following:

35 a. Resulted in an estimated midpoint number of averted

1 births, including by extension the reduction in unintended or  
2 unwanted pregnancies and repeat teen births, of thirty-six  
3 thousand one hundred sixty-nine.

4 b. Resulted in an estimated midpoint reduction in Medicaid  
5 costs attributable to costs avoided for each averted birth  
6 including costs for deliveries, births, and first years of life  
7 of four hundred eighty-five million dollars, not including the  
8 continuing costs for children who remain on Medicaid beyond  
9 their first birthday. Approximately forty percent of children  
10 who had a Medicaid-paid birth will remain on Medicaid for five  
11 or more years.

12 c. Resulted in a total estimated net savings in Medicaid  
13 costs of over four hundred seventy-six million dollars.

14 d. Provided a cost-effective mechanism to allow men and  
15 women access to family planning services which resulted in  
16 averted births and reduced costs to the state with the ninety  
17 percent federal match for such services.

18 2. Conversely, the most recent available data reported  
19 regarding the state family planning program established July 1,  
20 2017, and funded exclusively with state general fund moneys,  
21 indicates that from April through June of 2018, there was a  
22 seventy-three percent decline in services compared with April  
23 through June 2017, the last three months of the Iowa family  
24 planning network, and patient enrollment in the new program  
25 fell by more than half.

26 3. If family planning services were once again provided  
27 under the Medicaid program through a Medicaid state plan  
28 amendment, with the same benefits, eligibility requirements,  
29 and other provisions included in the former Iowa family  
30 planning network demonstration waiver, the state would be able  
31 to do all of the following:

32 a. Utilize the additional state funds available to  
33 expand efforts to continue to reduce abortions and improve  
34 reproductive and overall health for men and women in the state  
35 through broad-based family planning services, age-appropriate

1 sexual health education efforts such as the personal  
2 responsibility and education program, programs for pregnant and  
3 parenting teens, increased access to family planning services  
4 including contraceptives to men and women, Medicaid-enhanced  
5 prenatal services for members determined to be at high risk,  
6 and the Tit. X family planning program.

7     b. Utilize the entire family planning services provider  
8 network to expand access to reach those in need of publicly  
9 funded services, including those women for whom rates of  
10 unintended pregnancies are higher including low-income,  
11 younger, and less-formally educated women, and women of color.

12     c. Continue to provide necessary family planning services  
13 that have resulted in declining unintended pregnancies and  
14 fewer abortions, and that would result in additional resources  
15 being available to enhance the quality of life for children  
16 after they are born including through the head start program,  
17 prekindergarten programs, child care assistance, properly  
18 funded schools, foster and adoptive programs, hawk-i, and other  
19 programs that support and enrich the lives of children and  
20 families in the state.

21     Sec. 3. IOWA FAMILY PLANNING NETWORK — MEDICAID STATE  
22 PLAN AMENDMENT. The department of human services shall submit  
23 a Medicaid state plan amendment to the centers for Medicare  
24 and Medicaid services of the United States department of  
25 health and human services for approval to establish the Iowa  
26 family planning network with the same benefits, eligibility  
27 requirements, and other provisions included in the Medicaid  
28 Iowa family planning network waiver as approved by the centers  
29 for Medicare and Medicaid services of the United States  
30 department of health and human services in effect on June 30,  
31 2017.

32     Sec. 4. EFFECTIVE DATE. This division of this Act, being  
33 deemed of immediate importance, takes effect upon enactment.

34                                   DIVISION III  
35                   REPEAL OF STATE FAMILY PLANNING SERVICES PROGRAM

1 Sec. 5. REPEAL. Section 217.41B, Code 2021, is repealed.

2 Sec. 6. CONTINGENT EFFECTIVE DATE. The following takes  
3 effect upon receipt of approval by the department of human  
4 services from the centers for Medicare and Medicaid services  
5 of the United States department of health and human services  
6 of the Medicaid state plan amendment submitted pursuant to  
7 division II of this Act to establish the Iowa family planning  
8 network:

9 The section of this division of this Act repealing section  
10 217.41B, Code 2021.

11 DIVISION IV

12 SELF-ADMINISTERED HORMONAL CONTRACEPTIVES

13 Sec. 7. Section 155A.3, Code 2021, is amended by adding the  
14 following new subsections:

15 NEW SUBSECTION. 10A. "*Department*" means the department of  
16 public health.

17 NEW SUBSECTION. 44A. "*Self-administered hormonal*  
18 *contraceptive*" means a self-administered hormonal contraceptive  
19 that is approved by the United States food and drug  
20 administration to prevent pregnancy. "*Self-administered*  
21 *hormonal contraceptive*" includes an oral hormonal contraceptive,  
22 a hormonal vaginal ring, and a hormonal contraceptive patch,  
23 but does not include any drug intended to induce an abortion as  
24 defined in section 146.1.

25 NEW SUBSECTION. 44B. "*Standing order*" means a preauthorized  
26 medication order with specific instructions from the medical  
27 director of the department to dispense a medication under  
28 clearly defined circumstances.

29 Sec. 8. NEW SECTION. 155A.47 **Pharmacist dispensing of**  
30 **self-administered hormonal contraceptives — standing order —**  
31 **requirements — limitations of liability.**

32 1. Notwithstanding any provision of law to the contrary, a  
33 pharmacist may dispense, at one time, up to a one-year supply  
34 of a self-administered hormonal contraceptive to a patient,  
35 pursuant to a standing order established by the medical

1 director of the department in accordance with this section.

2 2. A pharmacist who dispenses a self-administered hormonal  
3 contraceptive in accordance with this section shall not  
4 require any other prescription drug order authorized by a  
5 practitioner prior to dispensing the self-administered hormonal  
6 contraceptive to a patient.

7 3. The medical director of the department may establish a  
8 standing order authorizing the dispensing of self-administered  
9 hormonal contraceptives by a pharmacist who does all of the  
10 following:

11 a. Complies with the standing order established pursuant to  
12 this section.

13 b. Retains a record of each patient to whom a  
14 self-administered hormonal contraceptive is dispensed under  
15 this section and submits the record to the department.

16 4. The standing order shall require a pharmacist who  
17 dispenses self-administered hormonal contraceptives under this  
18 section to do all of the following:

19 a. Complete a standardized training program and continuing  
20 education requirements approved by the board in consultation  
21 with the department that are related to prescribing  
22 self-administered hormonal contraceptives and include education  
23 regarding all contraceptive methods approved by the United  
24 States food and drug administration.

25 b. Obtain a completed self-screening risk assessment,  
26 approved by the department in collaboration with the board and  
27 the board of medicine, from each patient prior to dispensing  
28 the self-administered hormonal contraceptive to the patient.

29 c. Provide the patient with all of the following:

30 (1) Written information regarding all of the following:

31 (a) The importance of completing an appointment with the  
32 patient's primary care or women's health care practitioner  
33 to obtain preventative care, including but not limited to  
34 recommended tests and screenings.

35 (b) The effectiveness and availability of long-acting

1 reversible contraceptives as an alternative to  
2 self-administered hormonal contraceptives.

3 (2) A copy of the record of the pharmacist's encounter with  
4 the patient that includes all of the following:

5 (a) The patient's completed self-screening risk assessment.

6 (b) A description of the contraceptive dispensed, or the  
7 basis for not dispensing a contraceptive.

8 (3) Patient counseling regarding all of the following:

9 (a) The appropriate administration and storage of the  
10 self-administered hormonal contraceptive.

11 (b) Potential side effects and risks of the  
12 self-administered hormonal contraceptive.

13 (c) The need for backup contraception.

14 (d) When to seek emergency medical attention.

15 (e) The risk of contracting a sexually transmitted  
16 infection or disease, and ways to reduce such a risk.

17 5. The standing order established pursuant to this section  
18 shall prohibit a pharmacist who dispenses a self-administered  
19 hormonal contraceptive under this section from doing any of the  
20 following:

21 a. Requiring a patient to schedule an appointment with  
22 the pharmacist for the prescribing or dispensing of a  
23 self-administered hormonal contraceptive.

24 b. Dispensing self-administered hormonal contraceptives to  
25 a patient for more than twenty-four months after the date a  
26 self-administered hormonal contraceptive is initially dispensed  
27 to the patient without the patient's attestation that the  
28 patient has consulted with a primary care or women's health  
29 care practitioner during the preceding twenty-four months.

30 c. Dispensing a self-administered hormonal contraceptive to  
31 a patient if the results of the self-screening risk assessment  
32 completed by a patient pursuant to subsection 4, paragraph  
33 "b", indicate it is unsafe for the pharmacist to dispense the  
34 self-administered hormonal contraceptive to the patient, in  
35 which case the pharmacist shall refer the patient to a primary

1 care or women's health care practitioner.

2 6. A pharmacist who dispenses a self-administered hormonal  
3 contraceptive and the medical director of the department who  
4 establishes a standing order in compliance with this section  
5 shall be immune from criminal and civil liability arising  
6 from any damages caused by the dispensing, administering,  
7 or use of a self-administered hormonal contraceptive or the  
8 establishment of the standing order. The medical director of  
9 the department shall be considered to be acting within the  
10 scope of the medical director's office and employment for  
11 purposes of chapter 669 in the establishment of a standing  
12 order in compliance with this section.

13 7. The department, in collaboration with the board and  
14 the board of medicine, and in consideration of the guidelines  
15 established by the American congress of obstetricians and  
16 gynecologists, shall adopt rules pursuant to chapter 17A to  
17 administer this chapter.

18 Sec. 9. Section 514C.19, Code 2021, is amended to read as  
19 follows:

20 **514C.19 Prescription contraceptive coverage.**

21 1. Notwithstanding the uniformity of treatment requirements  
22 of [section 514C.6](#), a group policy, ~~or~~ contract, or plan  
23 providing for third-party payment or prepayment of health or  
24 medical expenses shall ~~not do either of the following~~ comply  
25 as follows:

26 a. Exclude Such policy, contract, or plan shall not  
27 exclude or restrict benefits for prescription contraceptive  
28 drugs or prescription contraceptive devices which prevent  
29 conception and which are approved by the United States  
30 food and drug administration, or generic equivalents  
31 approved as substitutable by the United States food and drug  
32 administration, if such policy, ~~or~~ contract, or plan provides  
33 benefits for other outpatient prescription drugs or devices.  
34 However, such policy, contract, or plan shall specifically  
35 provide for payment of a one-year supply of self-administered

1 hormonal contraceptives, as prescribed by a practitioner as  
2 defined in section 155A.3, or as prescribed by standing order  
3 and dispensed by a pharmacist pursuant to section 155A.47,  
4 including self-administered hormonal contraceptives dispensed  
5 at one time.

6 ~~Exclude~~ Such policy, contract, or plan shall not exclude  
7 or restrict benefits for outpatient contraceptive services  
8 which are provided for the purpose of preventing conception if  
9 such policy, or contract, or plan provides benefits for other  
10 outpatient services provided by a health care professional.

11 2. A person who provides a group policy, or  
12 plan providing for third-party payment or prepayment of health  
13 or medical expenses which is subject to [subsection 1](#) shall not  
14 do any of the following:

15 *a.* Deny to an individual eligibility, or continued  
16 eligibility, to enroll in or to renew coverage under the terms  
17 of the policy, or contract, or plan because of the individual's  
18 use or potential use of such prescription contraceptive drugs  
19 or devices, or use or potential use of outpatient contraceptive  
20 services.

21 *b.* Provide a monetary payment or rebate to a covered  
22 individual to encourage such individual to accept less than the  
23 minimum benefits provided for under [subsection 1](#).

24 *c.* Penalize or otherwise reduce or limit the reimbursement  
25 of a health care professional because such professional  
26 prescribes contraceptive drugs or devices, or provides  
27 contraceptive services.

28 *d.* Provide incentives, monetary or otherwise, to a health  
29 care professional to induce such professional to withhold  
30 from a covered individual contraceptive drugs or devices, or  
31 contraceptive services.

32 3. [This section](#) shall not be construed to prevent a  
33 third-party payor from including deductibles, coinsurance, or  
34 copayments under the policy, or contract, or plan as follows:

35 *a.* A deductible, coinsurance, or copayment for benefits

1 for prescription contraceptive drugs shall not be greater than  
2 such deductible, coinsurance, or copayment for any outpatient  
3 prescription drug for which coverage under the policy, ~~or~~  
4 contract, or plan is provided.

5     *b.* A deductible, coinsurance, or copayment for benefits for  
6 prescription contraceptive devices shall not be greater than  
7 such deductible, coinsurance, or copayment for any outpatient  
8 prescription device for which coverage under the policy, ~~or~~  
9 contract, or plan is provided.

10     *c.* A deductible, coinsurance, or copayment for benefits for  
11 outpatient contraceptive services shall not be greater than  
12 such deductible, coinsurance, or copayment for any outpatient  
13 health care services for which coverage under the policy, ~~or~~  
14 contract, or plan is provided.

15     4. *This section* shall not be construed to require a  
16 third-party payor under a policy, ~~or~~ contract, or plan  
17 to provide benefits for experimental or investigational  
18 contraceptive drugs or devices, or experimental or  
19 investigational contraceptive services, except to the extent  
20 that such policy, ~~or~~ contract, or plan provides coverage for  
21 other experimental or investigational outpatient prescription  
22 drugs or devices, or experimental or investigational outpatient  
23 health care services.

24     5. *This section* shall not be construed to limit or otherwise  
25 discourage the use of generic equivalent drugs approved by the  
26 United States food and drug administration, whenever available  
27 and appropriate. *This section*, when a brand name drug is  
28 requested by a covered individual and a suitable generic  
29 equivalent is available and appropriate, shall not be construed  
30 to prohibit a third-party payor from requiring the covered  
31 individual to pay a deductible, coinsurance, or copayment  
32 consistent with *subsection 3*, in addition to the difference of  
33 the cost of the brand name drug less the maximum covered amount  
34 for a generic equivalent.

35     6. A person who provides an individual policy, ~~or~~ contract,

1 or plan providing for third-party payment or prepayment of  
2 health or medical expenses shall make available a coverage  
3 provision that satisfies the requirements in subsections  
4 1 through 5 in the same manner as such requirements are  
5 applicable to a group policy, ~~or contract,~~ or plan under those  
6 subsections. The policy, ~~or contract,~~ or plan shall provide  
7 that the individual policyholder may reject the coverage  
8 provision at the option of the policyholder.

9 7. a. **This section** applies to the following classes of  
10 third-party payment provider contracts, ~~or policies,~~ or plans  
11 delivered, issued for delivery, continued, or renewed in this  
12 state on or after ~~July 1, 2000~~ January 1, 2022:

13 (1) Individual or group accident and sickness insurance  
14 providing coverage on an expense-incurred basis.

15 (2) An individual or group hospital or medical service  
16 contract issued pursuant to **chapter 509, 514, or 514A**.

17 (3) An individual or group health maintenance organization  
18 contract regulated under **chapter 514B**.

19 (4) Any other entity engaged in the business of insurance,  
20 risk transfer, or risk retention, which is subject to the  
21 jurisdiction of the commissioner.

22 (5) A plan established pursuant to **chapter 509A** for public  
23 employees.

24 b. **This section** shall not apply to accident-only,  
25 specified disease, short-term hospital or medical, hospital  
26 confinement indemnity, credit, dental, vision, Medicare  
27 supplement, long-term care, basic hospital and medical-surgical  
28 expense coverage as defined by the commissioner, disability  
29 income insurance coverage, coverage issued as a supplement  
30 to liability insurance, workers' compensation or similar  
31 insurance, or automobile medical payment insurance.

32 8. This section shall not be construed to require a  
33 third-party payor to provide payment to a practitioner for the  
34 dispensing of a self-administered hormonal contraceptive to  
35 replace a self-administered hormonal contraceptive that has

1 been dispensed to a covered person and that has been misplaced,  
2 stolen, or destroyed. This section shall not be construed to  
3 require a third-party payor to replace covered prescriptions  
4 that are misplaced, stolen, or destroyed.

5 9. For the purposes of this section:

6 a. "Self-administered hormonal contraceptive" means a  
7 self-administered hormonal contraceptive that is approved  
8 by the United States food and drug administration to prevent  
9 pregnancy. "Self-administered hormonal contraceptive" includes  
10 an oral hormonal contraceptive, a hormonal vaginal ring, and  
11 a hormonal contraceptive patch, but does not include any drug  
12 intended to induce an abortion as defined in section 146.1.

13 b. "Standing order" means a preauthorized medication order  
14 with specific instructions from the medical director of the  
15 department of public health to dispense a medication under  
16 clearly defined circumstances.

17 EXPLANATION

18 The inclusion of this explanation does not constitute agreement with  
19 the explanation's substance by the members of the general assembly.

20 This bill relates to state family planning services.

21 Division I of the bill provides a basis for a family planning  
22 and abortion reduction policy.

23 Division II of the bill requires the department of human  
24 services (DHS) to submit a Medicaid state plan amendment to  
25 the centers for Medicare and Medicaid services of the United  
26 States department of health and human services (CMS) for  
27 approval to establish the Iowa family planning network with the  
28 same benefits, eligibility requirements, and other provisions  
29 included in the Medicaid Iowa family planning network waiver  
30 as approved by CMS in effect on June 30, 2017. The section of  
31 division II of the bill requiring submission of the state plan  
32 amendment takes effect upon enactment.

33 Division III of the bill repeals the state family planning  
34 services program. The repeal of the program takes effect upon  
35 receipt of approval by DHS from CMS of the Medicaid state plan

1 amendment establishing the Iowa family planning network.

2 Division IV of the bill relates to the dispensing of  
3 self-administered hormonal contraceptives by a pharmacist.

4 The division provides that notwithstanding any provision  
5 of law to the contrary, a pharmacist may dispense at one  
6 time, up to a one-year supply of a self-administered hormonal  
7 contraceptive to a patient pursuant to a standing order  
8 established by the medical director of the department of public  
9 health (medical director).

10 The division authorizes the medical director to establish a  
11 standing order authorizing the dispensing of self-administered  
12 hormonal contraceptives by any pharmacist who complies with the  
13 standing order and retains and submits the patient's record to  
14 the department of public health (DPH).

15 The division requires DPH, in collaboration with the  
16 boards of pharmacy and medicine, and in consideration of  
17 the guidelines established by the American congress of  
18 obstetricians and gynecologists, to adopt administrative rules  
19 to administer the division.

20 The division amends prescription contraceptive coverage  
21 provisions to require that a group policy, contract, or plan  
22 delivered, issued for delivery, continued, or renewed in the  
23 state on or after January 1, 2022, providing for third-party  
24 payment or prepayment of health or medical expenses, shall  
25 specifically provide for payment of a one-year supply of  
26 self-administered hormonal contraceptives, as prescribed  
27 and dispensed as specified in the division, including those  
28 dispensed at one time.
